AT FAIR GROUNDS

Two league baseball games with an

even split for Oxford and the Norway-

Paris; dinner, midnight games, band con-

cert and horse racing continued after noon.

On the midway, where the "wheel", re-

freshment and novelty concessions oper-

ated also by the local managers had good

business. The dinner served in the din-

ing room adjoining the Exhibition Hall

proved a clean up with little food left

after the noon rush. The Norway Legion

Auxiliary and the Rebekahs who got up

the spread apparently underestimated the

appetites of their patrons and the large

supply of beer, chicken pies, doughnuts

and other nice things disappeared

rapidly.

Many brought their own basket lunches.

Family groups were noticeable among the

shade of the pines and in automobiles. A

fine spring of cold water over the bank

within the grounds, furnished refresh-

ments for all not anxious for city water

or soft drinks from the booths.

A Pine Tree League game in the morn-

ing was a bargain of twelve innings with

Oxford topping the Norway-Paris team

6-4 after making the score even in the

eighth.

The two-town aggregation returned hot

after the races and in the second encoun-

ter nearly whitewashed the visiting win-

ners. After going the eight innings with

blanks, Oxford squeezed through two runs

in their ninth and escaped the distance

in the final score was Norway-Paris 3,

Oxford 2.

The Buckfield grasshopper Ford doing

cray stunts was shown in front of the

grandstand.

Three good mixed races made up the

afternoon card. There were five start-

ers in the 2:23 class, the 2:19 class and

2:13 class, the latter made the juve-

niak for the day with Ben McKillop

closing the second heat in 2:12 1/2. Summary

Time—2:13, 2:12 1/2, 2:13 1/2, 2:12 1/2.

A cabaret dance at Association Hall

from 8 to 12 at night closed the celebra-

tion. The Biltmore orchestra of six

pieces played. One specialty not at the

program was the fire alarm at 11

o'clock that broke up the sport for a few

minutes. A number of firemen dressed in

sport clothes dashed from the hall and

joined their companies. Within twenty

minutes all were dancing again for the

entertainment. The party was a tough

blaze on a single roof was extinguished

without fuss.

SHADOW PARTY

A most enjoyable affair of the week

occurred Wednesday afternoon and even-

ing at Pine Point Lodge, Lake Pen-

nesseewassee, when Mrs. Bertha Noyes

entertained the members of the Daugh-

ters and Children's Day. Heretofore

the young folks have been entertained at

the hall on a winter date, but a change

was made believing a joint picnic in the

open would prove more enjoyable. All

will go to Lake Tripp Lake and carry a

picnic lunch. Cars will leave about 10

o'clock without meeting at any special

place. Mrs. K. Noyes is chairman

of a committee of arrangements.

A food sale will be held on the lawn

of the chairman, Mary Bicknell, July 17,

weather permitting. If stormy the Re-

ceptor Lodge, with the Knights of Ox-

ford and Hanover as guests. Supper

was served to 100. On the Temple committee,

of which Florence Fanout was chairman,

were Nellie Goodwin, Eva Anderson, Ma-

ry Bicknell, Adelle Lovejoy, Ella Par-

tridge, Hattie Gannon, Jessie Everett

and Mary Kimball.

Mr. and Mrs. Edward Anderson spent

the Fourth and Sunday at Camp Deaver,

South Pond, in Greenwood. Their guests

were Miss Elsie Wheeler and Mr. and

Mrs. Victor Atkinson and Mrs. Winifred

Atkinson. Mr. and Mrs. Russell were

at their summer place, Mountain Grove

Camp at North Bethel from Friday until

early in the week. They entertained over

the week end their daughter, Mrs. Geo.

Bennett, and son of Portland, Percy

Russell and family, Henry Russell and

family and Mr. and Mrs. Charles Knight

all of Norway.

And now, the brief holiday offered us by the observance of July 4th has passed and become only a memory, leaving us to give our full attention to the details of this

### July Clearance Sale

A trade event, firmly established and contributing most forcefully to pleasant memories.

### Clearance of Summer Coats

All Summer Coats we have left for women, misses and children are now marked from one-fourth, one-third to one-half off the regular fair price.

### Women's and Misses' Dresses

We have gone through our stock of silk dresses and marked many of our \$5.50 dresses at \$3.95 and \$9.75 dresses at \$6.75; some of the \$15.75 dresses have been marked at \$9.75.

### Children's Dresses

all marked down to a saving of one-third to one-half off the regular price.

### Women's Silk Stockings

Those who were unable to take advantage of the low prices on silk stockings during our last sale, should take advantage of the special discount of 10 per cent. off on all silk stockings for Saturday, the 11th. Odd lots and broken sizes of stockings priced without thought of cost to clean up.

### Women's and Misses' Blouses

marked at one-fourth to one-third off the regular fair price during sale time.

### Hand Bags

One lot hand bags marked one-third to one-half off to close out.

### Munsingwear Suits

Table of odd lots and broken sizes of women's knit summer union suits to close out at less than half price. Odd lots and broken sizes of corsets at one-half price.

### Piece Goods Department

One of the largest in the county offers at this time, in some instances, seasonable goods at a saving of one-fourth, one third to one-half the regular value.

### Remnant Counter

Remnants made from our own selling of materials at one-third to one-half off and in some instances not half price is asked.

### Rummage Table

Here you will find different articles, some are perfect, some are not, but we put them out and sell them as is and at very, very low prices.

### New Wash Dresses

received this week in the new Rayon Crepe, pastel shades at \$2.95 and new lawn and voile dresses at \$1.87, \$1.98 and \$2.95.

### New Summer Bed Puffs

in a nice assortment of designs at the now low prices, meaning a saving of twenty per cent. or more of what they have been.

## CHAPTER 3

With a few backward looks at the bushes and the Jogalong hurriedly went on. He had just explained the mystery of the Jogalong's disappearance. "There's something beginning to show," cried the boy. "The Jogalong is on the ground, and the boy has taken the Jogalong from the bushes. There's something beginning to show." "Yes," said the boy thoughtfully, "but—"

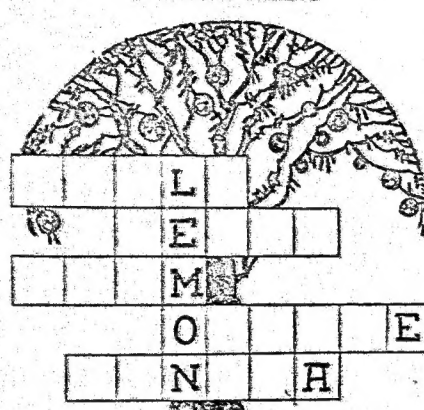

"No but about it," said the Jogalong. "I know what you are thinking. You can't see any food in the water! Isn't that it?" "Well, I can't," said the boy. "There is food in it. It's not I see it with these glasses!"

"Because," said the Jogalong, "it was all dissolved by the tiny hairs and thoroughly mixed with the moisture drops before it was allowed into the roots. What was good for the plant was taken in and what was not was carefully left out. Wise creatures, plants! Never eat things that are not good for them. Look again, boy, now what do you see?"

"Slowly and grandly," as a peacock unfurls its gorgeous tail, the boy watched a purple flower spread out its petals to dry in the sun. "Isn't it beautiful," said the boy. "I've often seen flowers like that in my garden, but they always seem to grow without anyone seeing them. I think that flower is an iris, isn't it?"

"Yes, it is, boy, and so delicate that if you touch its petals, you will bruise it." "Hello, there! Look at old Mr. Centipede. He's over on his back again. What happened next is in the next Jogalong tale."

## Georgie's Letter

Dear Aunt Betsy: I saw in the Advertiser that you had a letter from Ruby Boyce. She is one of my dearest friends. We were at school at Bryant Pond this year and it really did seem as if the year went awfully fast. I belong to a 4-H Club and am taking up canning. Last year we canned nearly 300 quarts. I earned the most of it because Ma was sick.

I like all kinds of animals, but horses are my favorites. Our neighbor has got some very wild calves in our pasture and I have been salting them until now I can easily get up to two of them. My cousin has got a heifer in the pasture and if I get her so I can get up to her, he is going to give me a dollar. I can touch her nose now. I tell you what I love everything and anything on a farm.

We have got a cat and his name is Puggs. He has got the funniest little nose! Oh heavens! I have been calling this cat a he, when she has two kittens. My brother, Carroll just loves to plague anyone he can. I like to talk to animals when I am around them. Our horses are Harry, Bert, Max and Prince. Max is a horse we raised and broke. His mother was a road horse. He is a good little work horse and haul, oh, I would like to have anyone see him haul. Money can't buy him. I expect to go to high school this fall. I want a good little horse to go with.

I would like to know how to make some crepe paper articles if you would like to tell me how to do it. I have a nineteen inch doll and a fourteen inch doll, but I never play with them. I must close now, hoping to hear from you soon, also I shall be watching for Grandmother's letter.

I suppose everyone had a pile of rack and noise on the 4th, I didn't. Love to you all, Georgie Yates, R. F. D. No. 2, Bryant Pond, Maine.

P. S. My birthday is February 5th, and on that day I will be fifteen years old.

## Indian Story from Madge

West Paris, Maine, July 5, 1931, Dear Aunt Betsy: I am glad you liked my story of Molly Ockett. One of my favorite pastimes is reading. I have read the legend of Metlak, the Lone Indian of the Magalloway, and will tell you what I can remember of it.

It is thought that he was born in the Androscoggin Valley. In 1735 several hundred Indians living between Canton and Bethel were visited by an epidemic of small pox and a great many died. The remaining ones became frightened and fled to Canada. Molly Ockett, Metlak and his squaw, Oozalak, were the only ones to ever return.

Metlak had been chief of his tribe, but on account of his refusing a white girl from torture he was disinherited. Metlak at one time lived on Metlak point, Richardson Lake and was buried there. Metlak sat on her grave three days and three nights, taking no food during that time. He then left and went to live on Metlak Lake at Umbagog Lake. He got his living by hunting. One time he killed a moose and decided to camp overnight on the spot. He skinned the moose, wrapped himself in the skin, dug a bed in the snow, and went to sleep. He laid warm, but in the morning he found the moose skin had frozen solid and it took him a long time to get out of it.

Metlak was twice married. His first squaw's name was Kooka. They had three or four children. One child was killed by wolves. Kooka, his first wife with her little papoose was out in the woods gathering berries and herbs, when they ran across a wolf. Kooka at once sensed the danger and started for the lodge with the pack in close pursuit. She had almost reached when she stumbled over a root and fell. Whereupon the nearest wolf seized the child's head, which was sticking out of the bag, killing it immediately.

Metlak heard the commotion and came out and shot the wolf. And afterwards always killed every wolf he saw.

Metlak's last camp was on an island in the Magalloway river. By this time he had grown old and had lost the sight of one eye in an accident. Some years later two hunters found him in his camp perfectly helpless, having lost sight of his other eye. He then went to live with his daughter in Canada, but soon returned and became a town charge in Stewartstown, N. H.

His last home was with a man named Lenard Pelton, who had a son named Buzzell. He used to lead the old Indians around and always left him in a clump of bull thistles to get out the best way he could. Metlak never would sleep in a bed, so they made him a bunk on the floor, and one morning he was found dead at the age of one hundred and twenty. He is buried in North Hill cemetery at Stewartstown, New Hampshire.

In 1915 a stone was erected to mark the spot where rests Metlak, the lone Indian of Magalloway, the last of the Coosauks. —Madge W. Morgan.

## GEE GEE'S VISIT TO GRANDMA'S

A Story from Auntie  
Years ago there was a little girl whose grandmother and aunt called Milly. Milly often visited the home where the grandmother and aunt lived. She had such quaint unique ways that the grandma and aunt wrote of some of them and had the paper print them to interest other children. Milly, as she grew up, was away attending higher schools and teaching, which took her time, so her visits were fewer and further between years after. After a time Milly married a girl, the grandmother died and Milly and auntie drifted apart as often happens.

In due course of time Milly's mother became grandma and what a wonderful event! Such a splendid child! The home not seen since the birth of Milly. And oh that this grandma could have her to love and cherish all by her self a few weeks now and then as Milly's grandma had had her, but then as Milly's grandma (as we will call her) papa and mama wouldn't spare her from the home and Gee Gee's grandma must needs come there to love and adore, which she did, though miles and miles away.

So far, indeed, that Gee Gee's grandma had two sets of things needed, one at Gee Gee's and one at home, so to be fitted out at a minute's notice, if opportunity came that she could make the trip, which she frequently did. On one of these occasions Gee Gee watching her grandma playing things here and there, inquired: "Grammie, do you keep this here all the time or part of the time, and this, do you keep home part the time and here part the time?" Other babies came in to Gee Gee's home and though she is still as precious, some of the wonder had worn off and one glorious spring day, when Gee Gee was five years old, she and her suit case came home with Grandma. And wasn't it wonderful! The dogs, the cat, the chickens, the play house, and her mother's, the sand bank where her uncles and mother had spent hours in play. The piano to drum on if only her hands were clean and nobody to say her way for fear of waking a baby. And to have so many cousins on either side of her, twelve in all, ready to pay her homage, taking her to hand this one and that one maybaskets, racing through fields and pastures like as if she was quite grown up and then the thrill of grandma's voice as she kept her away from door or window and all was hushed when a sudden whang up on the door and "maybaskets!" How Aunt Chess and Laurie helped chase the party and catch those whom Gee Gee missed and gathering inside the house, what excitement and sometimes 'twas long, long time after sundown or so it seemed to little Gee Gee, whose bed time at home was sundown.

Going to church was a solemn duty and no pleasure aside from wearing the pretty new fixings, Aunt Chess got for her, but it all added to enjoyment of the fever times in day school, where she set in state with her larger girl cousins and again when she helped tend the store, time Grandma went off on business for an afternoon. She helped grandma plant the garden. The beans in the hills she planted are the most numerous by far today. It can't be all due to the extra care grandma gives them either, and as for the help she tried to give her mother's aunt, strawberry, is worthy of note. She knew that this aunt had two pairs of spectacles, one especially to read in. After following along a while she exclaimed,

"Grammie, do you keep this here all the time or part of the time, and this, do you keep home part the time and here part the time?" "Well Aunt — you'll just have to have strawberry glasses!"  
The letters from home came often and often and Gee Gee's face grew serious at times, but she oh so brightly when one came saying mama and sisters were coming for her the following Sunday. When that day came she was a little girl about going, though wanting to "Look things over at home." Now grandma is wondering if soon Gee Gee won't tease to come to grandma's to "Look things over?" She feels sure she will and looks forward for the day — Auntie.

## GREENWOOD—RÖWE HILL

Fourth of July visitors and callers in this neighborhood were at Orlan York's, Mr. and Mrs. George Powers of Greene and Hebron; at Newton Bryant's were Mr. and Mrs. Clarence Ring and children of Sumner, Mr. and Mrs. Dwyward Lang and son, Bryant Pond; Ralph Brooks was at Mont Brooks.

Colby Ring and family spent the 4th at Bailey's Island, returning Sunday. Callers at Orlan York's last Thursday evening were Mr. and Mrs. Frank Newton of Long Island, N. Y., Elva Hazelton of Norway, Mr. and Mrs. Wallace Hazelton and children of Sumner. Sunday callers were John and George Gerrish of Dixfield, Mr. and Mrs. Alton York, Bryant Pond, Mrs. Louise Knights and Mrs. Nettie Hall and four children of South Bethel.

Mrs. Vera Dunham is visiting in Stoneham this week.

George Gerrish is visiting his uncle, Orlan York, a few days this week. There are twenty-five girls at Camp Seboshia.

Mr. and Mrs. Dwyward Lang and son, Merle, are staying with her parents for a short time.

How Aunt Chess and Laurie helped chase the party and catch those whom Gee Gee missed and gathering inside the house, what excitement and sometimes 'twas long, long time after sundown or so it seemed to little Gee Gee, whose bed time at home was sundown.

Going to church was a solemn duty and no pleasure aside from wearing the pretty new fixings, Aunt Chess got for her, but it all added to enjoyment of the fever times in day school, where she set in state with her larger girl cousins and again when she helped tend the store, time Grandma went off on business for an afternoon. She helped grandma plant the garden. The beans in the hills she planted are the most numerous by far today. It can't be all due to the extra care grandma gives them either, and as for the help she tried to give her mother's aunt, strawberry, is worthy of note. She knew that this aunt had two pairs of spectacles, one especially to read in. After following along a while she exclaimed,

"Grammie, do you keep this here all the time or part of the time, and this, do you keep home part the time and here part the time?" Other babies came in to Gee Gee's home and though she is still as precious, some of the wonder had worn off and one glorious spring day, when Gee Gee was five years old, she and her suit case came home with Grandma. And wasn't it wonderful! The dogs, the cat, the chickens, the play house, and her mother's, the sand bank where her uncles and mother had spent hours in play. The piano to drum on if only her hands were clean and nobody to say her way for fear of waking a baby. And to have so many cousins on either side of her, twelve in all, ready to pay her homage, taking her to hand this one and that one maybaskets, racing through fields and pastures like as if she was quite grown up and then the thrill of grandma's voice as she kept her away from door or window and all was hushed when a sudden whang up on the door and "maybaskets!" How Aunt Chess and Laurie helped chase the party and catch those whom Gee Gee missed and gathering inside the house, what excitement and sometimes 'twas long, long time after sundown or so it seemed to little Gee Gee, whose bed time at home was sundown.

## Maine's Five Kezars

By Lydia Lord Shedd

Five beautiful ponds lie deep in the heart of a forest in Maine. They are known as the Five Kezars and are reached by good auto road turning to the west from the village of North Waterford, through a dense forest one mile, and across a new substantial bridge and across along the hard white sand at the water's edge one-half mile, then one finds the five Kezars, which is located in the town of Waterford, Lovell and Stoneham. By boat a visitor is able to reach four of the Kezars which are connected by narrow channels which are connected by a series of locks.

"Here is a bit of blue sky that's been hid in a valley's cup, blue sky side up. Tumbled a little lakelet straight home."

There have been the astonish-ment of the author of this bit of poetry to have seen not one, but five little gems in a setting of green forest, towering mountains, and cold, gray ledges. Long wooded ridges known as "cork hocks" separate each lake from the other. Crests of smooth white and form a part of the shore line and make ideal bathing benches.

Cliffs rise in majesty along the shore line, farther on the forest comes to the water's edge. The Kezars are fed by many tumbling streams from the mountains and boiling springs from their beds.

The outlet is beautiful Kezar river, which flows quietly along in the forest. It is suddenly reaches granite ledges. Just a moment one is startled by a mighty roaring and then appears the unexpected sight of a huge cataract known as Kezar Falls. The water drops many feet onto jagged rocks, white and splashing, and as suddenly the churned foam finds its way again into a quiet stream.

It glides on its way until again falls are formed between granite ledges. Now it continues on its way to the sea, uninterrupted along the wide green plains of Lovell.

These lakes derive their name from an old legend. It is said that a white man named Kezar sought to escape pursuing Indians. Knowing that the falls were the only place of escape he jumped over the falls and hid in the depth below which was more welcome than capture and torture at the hands of the Indians. One desperate Indian was following closely halted on the brink while Kezar escaped into the forest.

Along the lake shore the camper finds convenient rock fireplaces to roast his meats, boil his coffee and eggs, and to toast waffles and marshmallows. Wells are found at intervals where pure, cold water is needed to finish a wholesome outdoor meal.

This region is a delight to the hunter and trapper. Here they find paths trodden hard by the nimble feet of deer that come to the water for cool refreshing water. In the early dawn a buck with wide spreading antlers sniffs the air for scent of foe, snorts loudly as he disappears into the forest.

Recently a black bear was seen with two cubs whom she was teaching to bathe. Licking water no better than some small boys, they imitated her for shore, whereupon the mother caught them roughly and threw them back into the water repeatedly.

Here the cranes build their nests and in autumn the water breaks to its wild duck. The loon breaks the stillness of the forest with its weird cry. Here, too, the wild geese find a resting place as they wing their way to their winter homes. A muffled drumming in the woods tells one of the birds near by.

When the frost is in the air the bugle call of the loon is heard, but as night draws nigh the sportsman turns their weary feet toward their blazing campfires, where thrilling tales are told of their day's adventure in the Kezar region.

And you who love rest and quiet will find your haven at the Kezars, where a few snug cottages overlook the beauty of the blue waters.

The Lake Development Company has been formed recently. Harry Brewster, W. H. Ray, Fred Hersey and George Bartlett have built fine roads around the ponds, also new bridges. They are stocking the ponds with fish. Severals are now being put in, they have done a great amount of work to beautify the lake region for the benefit of the public. This is one of the finest show places in Maine.

A beautiful drive leads from Bangor through this wonderful country. They have done their part to help boost Maine, and I, too, put my little prop under to honor Maine.

**Kezar River**  
Out from the tranquil Kezar lakes a little stream comes fretting. Now it bubbles and rounds about. Where the alders form a netting. Now under the Kezar mountain fair, like a silver star on its emerald bar. The noisy brook goes splashing. Below the majestic waterfalls. With its waters swiftly dropping like a white sheet from the rocks below. Where ledges sharp are cropping. Out from the craggy granite walls, its frothing tongue like diamonds lunging. Grashing along to its dizzy goal. The mighty stream goes whirling. Below the white foam of the waterfalls. Is the foam on its water curling. Leaping over its rocky barriers. With its waters clear and sparkling. Like a foaming sea over the sloping mead. With the sand bars winking fair. Twisting along through a meadow fair. Where tall pine trees are growing; The fall breaks shadow makes. Where the river's swiftly flowing. And now the river widens grows. The waters clear and sparkling. Singing a song, winding along. In a smiling meadow. O! wonderful stream of the Kezar plains. The home of fair Kezar river; The sun's gleam, the moon's glow. Blessing the glorious river.

Now beautiful, stately old Kezarsage, a laborer, he breaks one road over hill and plain to join the train. The sun is setting behind the hill. But its glimmering lights remain. As we travel along the shining track. To the lakes in the hills again. O! beautiful changing Kezar river. You're a million things to me. With music sweet, till life's complete. And he bids thee "Peace, he still".

Other Games Saturday  
Rumford and West Stoneham were the only pair to go the limit in the league, Saturday. Showers spoiled things for Mechanic Falls and Oxford in the first, while rain poured down in Auburn, where the game was postponed.

The condition is shown in the following:

**Norway-Paris 7; Auburn 0**  
Chet Pratt, the Norway-Paris star, was twirled, but he was not out of the game again at Auburn, Wednesday, by holding his opponents to two hits in four innings. Only 20 Auburns faced him during the nine innings of the game.

The team which this morning played errorless ball and functioned like a well oiled machine.

The Norway-Paris outfit scored one in the first and went home with the win, when a William Bryan tag out Auburn's defenses. Timely hitting and good base running netted four crossings in the sixth.

**Score by innings:**  
Norway-Paris 1 0 0 0 2 4 0 7  
Auburn 0 0
